FakeNooz

Societal uproar about fake news:
Our objective is to present people with
an aggregated collection of news to get a
broader view of the news they consume

HIGH LEVEL GOALS

1. Natural Language Processing that analyzes sentences
 2. Compare various articles and find overlapping and non overlapped facts/claims
 3. Categorize articles into similar sections
 4. Web scraper to get most articles from various source URLs
 5. Desktop app with GUI
 6. Articles presented cleanly to user
-

FakeNooz

- Sprint 1
 - As a reader, I want my news to be confirmed by several sources to weed out false news. (4)
 - As a reader, I want to know what statements are contested so that I can investigate contested claims on my own. (1 & 2)
 - As a reader, I need news that is not biased so that I can make my own opinions. (1 & 2)

FakeNooz

- **Sprint 2**
 - **As a reader I need an easily navigable way to read the news. (3 & 5)**
 - **As a reader, I need the most important stories to show up first so that I can get a quick overview of current news. (3 & 5)**
 - **As a reader, I want related articles to be picked out automatically so that I don't need to find them. (3 & 5)**

FakeNooz

- Sprint 3
 - As a reader, I need a mobile or web-based app so that I can read news away from my home computer. (6)

FakeNooz

PRODUCT BACKLOG

- As an advertiser, I want to know data about readers so that I can effectively advertise to them (*should have website).
- As a reader, I want to view photos so that I can get an accurate picture of the events happening.
